Research assistant in scientific projects

The Institute of Clinical Biometrics of the Medical University of Vienna (Center for Medical Data Science) has a job opening for a research assistant in scientific projects. The position can be started in March 2024 the earliest. The successful candidate will be directly supervised by the Head of the Institute, Prof. Georg Heinze. The successful candidate will be offered an interesting position in an internationally renowned and networked working group. In addition, a doctoral program (Dr. med. sci., thematic program "Epidemiology") can be enrolled at MedUni Vienna. If interested, there is also the possibility to participate in teaching in the diploma program in human medicine (introductory statistics courses).

Scope of employment:	30 hours per week (75%); salary in accordance with the collective agreement for universities
Duration:	presumably 3 years (e.g., March 2024 – February 2027)
Prerequisites:	Master's degree in statistics or equivalent training in applied statistics, mathematics or data science
Work experience:	Not required, but great interest in scientific work is a prerequisite.
Expected additional qualifications:	Very good knowledge of R, Markdown, Quarto, Rstudio, Office, literature management
	Very good communication skills
	Scientific argumentation and communication skills, accuracy
	Ability and interest to work in interdisciplinary teams
	Very good written and spoken German and English skills

Expected interest:	Enjoy working with real data
	Clinical-epidemiological questions
	Statistical-methodological research (literature search, method development, method evaluation)
	Internationality (conference visits, working visits)
Applications:	should please include a letter of motivation (max. 1 page), informative CV, references and the Master's thesis or another academic paper you have written yourself, ideally by February 20, 2024

Applications or requests for further information should be addressed to Prof. Georg Heinze (by phone or e-mail). Contact details can be found on the Institute's website: https://data-science.meduniwien.ac.at/institute/klinische-biometrie
